Professional Summary

Network and Systems Engineer with 3+ years of hands-on experience designing, deploying, and maintaining enterprise and ISP-grade network infrastructure. Proficient across MikroTik RouterOS, Cisco, Huawei, and BDCOM platforms, with practical expertise in VLAN segmentation, routing, VoIP, and Layer 1–3 fault diagnosis. Skilled in infrastructure and log monitoring through Elastic Stack (ELK) and Grafana, supporting 24/7 live-streaming and multi-branch environments with high availability. IsDB-BISEW certified in Network System Administration and currently completing a B.Sc. in Computer Science and Engineering

Professional Experience

11/2024 – Present

OnnoRokom Projekti Limited

Assistant Network Engineer (DevOps & Network)

- Deploy, configure, and maintain enterprise network infrastructure across MikroTik routers and Cisco, Huawei, and BDCOM switches at head office and branch locations.
- Execute end-to-end physical deployments rack mounting, power distribution, uplink planning, and port allocation following structured data centre standards.
- Design and maintain structured cabling with patch panel termination, labeling, and rack-level cable management to shorten fault isolation time.
- Administer LAN, WAN, and wireless infrastructure to ensure high availability and low latency for business-critical services.
- Troubleshoot Layer 1–3 connectivity faults through systematic diagnostics and root cause analysis, escalating critical incidents per response procedures.
- Manage IP addressing, VLAN segmentation, routing policies, and switching configurations across the production environment.
- Configure and support wireless access points and IP telephony systems.
- Operate centralized log and infrastructure monitoring via Elastic Stack (ELK) and build Grafana dashboards to detect performance degradation proactively.
- Provide real-time network assurance for Udvash live online classes, ensuring uninterrupted high-concurrency streaming.
- Serve as technical escalation point for internal teams and branches fault resolution, device inventory, automated config backups and coordinate with hardware vendors and ISP partners on upgrades.

11/2022 – 09/2024

Premium Connectivity Limited (ISP)

Support Executive (Planning & Development)

- Monitored uplink/downlink traffic, service availability, and performance thresholds via NMS platforms, with scheduled service verification across the subscriber network.
- Handled customer connectivity incidents end-to-end line diagnostics, coordinated field troubleshooting, and full service restoration.
- Coordinated with Fiber/Transmission and Power teams to resolve fiber cuts, power failures, and outages within committed restoration timelines.
- Performed remote configuration and configuration backup of network devices and servers over SSH and Telnet.
- Maintained clear communication between internal teams and clients throughout the incident lifecycle, reducing overall service downtime.

Education

2026	Bachelor of Science in Computer Science and Engineering (CSE) Green University of Bangladesh CGPA: 3.45 / 4.00
2019	Diploma in Engineering, Electronics Technology Magura Polytechnic Institute Bangladesh Technical Education Board (BTEB) CGPA: 3.27 / 4.00
2015	Secondary School Certificate (SSC), Science Shimor High School Dinajpur Board GPA: 4.83 / 5.00

Technical Skills

Networking

TCP/IP, IP Addressing, Subnetting, VLAN, Trunking, Static & Dynamic Routing, NAT, ACL, DHCP, DNS, VPN (IPSec, OpenVPN), Wireless Networking, LAN/WAN, Structured Cabling, Patch Panel Management

Server & Systems

Windows Server 2016, Active Directory, Group Policy (GPO), DNS, DHCP, WSUS, WDS, IIS, Windows Firewall / IPSec, Linux Fundamentals

Productivity

Microsoft Word, Excel, PowerPoint, Access, Outlook

Network Hardware

MikroTik RouterOS, Cisco Catalyst Switches, Huawei Switches, BDCOM Switches, Access Points, IP Phones, Rack Mounting & Cable Management

Virtualization & Storage

VMware, Microsoft Hyper-V, VirtualBox, iSCSI, NFS/SMB, DNS Cache Server

Monitoring & Observability

Elastic Stack (Elasticsearch, Logstash, Kibana), Grafana, NMS Tools, SNMP, Syslog, Uptime & Performance Monitoring

Tools & Protocols

SSH, Telnet, Configuration Backup Automation, VoIP / SIP, Troubleshooting & Root Cause Analysis, Vendor & ISP Coordination

Languages

Bengali

Native

English

Professional Working Proficiency

Hindi

Basic

Professional Certification & Training

05/2022 – 11/2022	Diploma in Network System Administration (NSA) IsDB-BISEW IT Scholarship Programme Coursework: IP Addressing & Subnetting, Routing & Switching, VLAN, NAT, VPN, Wireless Networking, Windows Server 2016, Active Directory, DNS, DHCP, GPO, WSUS, WDS, IIS, Windows Firewall/IPSec, iSCSI, NFS/SMB, Database Services, Virtualization (Hyper-V, VMware, VirtualBox), and System Administration. Duration: 6 Months
Gazipur, Dhaka	Industrial Training - Basic PLC Automation System North Bengal Engineering Institute Duration: 6 Months
